

ZEZHAO WANG

Research & Data Analyst · AI Evaluation · User & Customer Insights · Measurement

Quantitative and qualitative analysis of learning pathways, engagement, group differences, data quality, and feedback—built to turn user evidence into product, service, and evaluation decisions.

Role fit: Data Analyst · Product / User Insights · Evaluation Analyst · Research Analyst

SELECTED EXPERIENCE

Research Collaborator · User & Learning Analytics 2025 - 2026

Universitat de València · Universitat Politècnica de València · edX English-language MOOC analytics project

- Analysed activity, progression, engagement, and feedback for 20,000+ users on English-language MOOCs delivered through edX.
- Identified participation barriers and early disengagement patterns across digital learning pathways.
- Translated findings into recommendations for course structure, learner support, and workplace-oriented English materials.
- Collaborated with Professor Ana Gimeno-Sanz and UPV partners across learning analytics, digital course design, and computer-assisted language learning.

Doctoral Researcher · Multilingual AI Speech Evaluation 2022 - 2026

Universitat de València

- Designed a reproducible workflow combining Whisper ASR, GPT-supported analysis, Python/R, and structured CSV/JSON processing for multilingual learner speech.
- Evaluated automated indicators against human-coded reference using reliability and calibration analyses.
- Compared model configurations through confidence, segmentation, error preservation, measurement quality, and manual-review burden.

Researcher · EVALCOMPLIN Multilingual Assessment 2022 - 2026

EVALCOMPLIN · Universitat de València

- Evaluated reliability, validity, group performance, and cross-linguistic comparability across Spanish-, Chinese-, and English-speaking learners.
- Integrated language samples, teacher evidence, and quantitative and qualitative findings into guidance for consistent interpretation.

Visiting Scholar · Multilingual Assessment Sep 2024 - Dec 2024

Stanford Graduate School of Education

- Worked with Professor Guillermo Solano-Flores on multilingual assessment, cross-cultural validity, educational measurement, and fairness.

SELECTED PROJECT

Evaluation Data Inspector

Sep 2026

A Python and Streamlit application that turns a CSV into a concise data-quality and descriptive-analysis report, with synthetic demo data, reusable analysis code, tests, and documented deployment paths.

- Accepts UTF-8 CSV uploads and includes synthetic educational evaluation data for a safe walkthrough.
- Produces structure, completeness, descriptive statistics, missingness, group comparisons, effect sizes, and visualisations.
- Separates the Streamlit interface from reusable pandas/NumPy analysis functions.

EDUCATION

PhD · Education

2022 - 2026

Universitat de València

Cum Laude · International Mention

Dissertation: A Study on Error-Preserving Automatic Transcription: Validation of a Simplified Tool for Speech Analysis and Oral Language Assessment

Master's degree · Special Education — Speech and Language Support

2021 - 2023

Universitat de València

Bachelor's degree · Spanish Language and Literature

2017 - 2021

Yunnan Normal University

CORE CAPABILITIES

Analysis	Data preparation & cleaning · Descriptive statistics · Group comparison · Effect sizes · Regression & calibration · Reliability & validity · Inter-rater analysis · Error classification
Research design	Surveys & interviews · Mixed methods · Explaining evidence for decisions · Reproducible documentation
Stakeholder work	Research and partner collaboration · Needs clarification · Proposal development · Multilingual professional communication · Implementation and training support
Tools in practice	Python · R · pandas · NumPy · Excel · SQL · Power BI · Streamlit

LANGUAGES

Mandarin Chinese Native	English C2	Spanish C2
