

ZEZHAO WANG

Research & Data Analyst · AI Evaluation · User & Customer Insights · Measurement

Transferable experience in user-pathway analysis, structured discovery, multilingual communication, proposal development, training support, and stakeholder-ready recommendations.

Role fit: Customer Success · Customer Insights · Account / Partnership Support · Analytical Growth Support

SELECTED EXPERIENCE

Independent Product, Market & Customer Discovery • Held structured discussions with founders, product teams, and stakeholders about AI-enabled services. • Clarified customer, evidence, implementation, and growth-support needs. • Developed tailored value propositions, proposals, and follow-up materials.	2026
Research Collaborator · User & Learning Analytics Universitat de València · Universitat Politècnica de València · edX English-language MOOC analytics project • Analysed activity, progression, engagement, and feedback for 20,000+ users on English-language MOOCs delivered through edX. • Identified participation barriers and early disengagement patterns across digital learning pathways. • Translated findings into recommendations for course structure, learner support, and workplace-oriented English materials.	2025 - 2026
Practicum · Early Childhood & Primary Language Support Colegio Parroquial Diocesano Santiago Apóstol • Supported children aged 3–9 through classroom activities, language tasks, and adapted small-group work. • Communicated with families about progress and support needs in a multilingual context.	2022 - 2023
Doctoral Researcher · Multilingual AI Speech Evaluation Universitat de València • Converted findings into practical criteria for model selection, human oversight, and educational interpretation. • Delivered multi-study doctoral research from design and data preparation through analysis, quality review, and reporting.	2022 - 2026
Researcher · EVALCOMPLIN Multilingual Assessment EVALCOMPLIN · Universitat de València • Supported school implementation, stakeholder interviews, teacher training, sampling, and documentation.	2022 - 2026

SELECTED PROJECT

Evaluation Data Inspector

Sep 2026

A Python and Streamlit application that turns a CSV into a concise data-quality and descriptive-analysis report, with synthetic demo data, reusable analysis code, tests, and documented deployment paths.

- Accepts UTF-8 CSV uploads and includes synthetic educational evaluation data for a safe walkthrough.
- Produces structure, completeness, descriptive statistics, missingness, group comparisons, effect sizes, and visualisations.

evaluation-data-inspector.streamlit.app/

EDUCATION

PhD · Education

2022 - 2026

Universitat de València

Cum Laude · International Mention

Dissertation: A Study on Error-Preserving Automatic Transcription: Validation of a Simplified Tool for Speech Analysis and Oral Language Assessment

Master's degree · Special Education — Speech and Language Support

2021 - 2023

Universitat de València

Bachelor's degree · Spanish Language and Literature

2017 - 2021

Yunnan Normal University

CORE CAPABILITIES

Stakeholder work	Research and partner collaboration · Needs clarification · Proposal development · Multilingual professional communication · Implementation and training support
Analysis	Data preparation & cleaning · Descriptive statistics · Group comparison · Effect sizes · Regression & calibration · Reliability & validity · Inter-rater analysis · Error classification
Research design	Surveys & interviews · Mixed methods · Explaining evidence for decisions · Reproducible documentation
Tools in practice	Python · R · Excel · Streamlit · Power BI · SQL
